Subject: Magnepan/Arcam

Oli,

thank you very much for demonstrating the Magnepan 1.6 and 3.6 loudspeakers this past Saturday. I am currently reading up on the ARCAM products your store offers to get a better idea what models are offered, etc.

I must say again I personally felt much more comfortable at Innovations than I did at B. [redacted] for a variety of reasons. I am just getting settled in to a new place, but I am interested in a 2 channel system for a spare room, and in the future will be looking into multi-channel / home theater gear.

Thank you for your time.

Ernesto Hernandez
